ABOUT THIS QUESTIONNAIRE

Before you sign, know who you are dealing with

The institution sends this questionnaire to a third party before engagement. Depth follows risk: a low-tier supplier answers four sections, a critical provider answers all nine.

For the institution

1. **Tier first.** Decide the risk tier before sending, and strike out sections the tier does not need.
2. **Verify at the source.** Check licence, ownership and bank details against official registers, not only the answers given.
3. **Record the decision.** File the questionnaire, the checks and the approver with a date.

For the respondent

1. **Answer every question** in the white cells; write "none" rather than leaving a blank.
2. **Tick boxes** by marking ☒, and attach the documents asked for.
3. **Sign the declaration** in section 9 and tell the institution of any material change.
